

## Company Background

Pacific Blends was established in early 2002 and is now a recognized Western Canada manufacturer of custom blended food ingredients. Located in a modern production facility in Port Coquitlam BC, near the US border and rail and container terminals, the Company is conveniently located to service Western Canada, the Western United States and the Pacific Rim. Company founders John Wells and Cameron Wells have over 40 years of combined experience in the food industry and are able to offer innovative product and service solutions to meet customer needs.

The company operates full product development and quality control laboratories, staffed by qualified technical professionals. New product development, product duplication, nutritional analysis and full product quality certification are among the services available.

The production facility operates under HACCP recognition and is Kosher Certified. It contains state of the art, large capacity ribbon blenders and high speed packaging equipment. All products are subjected to screen classification, magnetic inspection and final package metal detection to ensure safety. A positive hold system, full lot tracking system and complete product analysis prior to shipping guarantees product conformance prior to customer use.
